MOTION

Date: June 11th, 2013
Member of Parliament: Sen. Janet Ong’era
Contribution she made on: Fate of Devolved Government and Devolution

- Noting the Senate’s power to interrogate any Cabinet Secretary on issues that pertain to the Ministry, she suggested the summoning of the cabinet secretary over the questions raised on the devolved government and devolution.
- She recommended the media cover all the members in the house so that their contributions can be seen by the public.

Date: June 11th, 2013
Member of Parliament: Sen. Martha Wangari
Contribution she made on: The Ruling of the Chair on National Assembly Rejection of Senate Amendments to the Division of Revenue Bill, 2013

- She pointed out that the President, during the Joint Sitting of Parliament, had repeatedly stated that devolution was not an option for the Jubilee Government and she called for the executive to stay focused on actualizing devolution to ensure the people of Kenya benefit from it.
- She added that the Senate needed to re-affirm its presence and inform the public their role as described in the Constitution and its relationship with the National Assembly.

Date: June 11th, 2013
Member of Parliament: Sen. Elizabeth Ongoro
Contribution she made on: The Ruling of the Chair on National Assembly Rejection of Senate Amendments to the Division of Revenue Bill, 2013

- She commended the speaker on the ruling he had made, and thanked the Senators for the unity of purpose that they had shown in handling the matter. She noted that it was vital to ensure they offer the country a system with the kind of structures and adequate funding that ensures that devolution takes root.
- She pointed out that mixed signals were being sent to the public, which implied for the second time, the nation was making an attempt to kill devolution by ensuring that counties are not given adequate funding to take root and build the kind of firm foundation that they are supposed to build upon. She also challenged the Executive to come clean on the issue.
Date: June 13th, 2013
Member of Parliament: Sen. Beatrice Elachi
Contribution she made on: Request for Advisory Opinion from the Supreme Court on the Constitutionality of the Process Followed in the Disposal of the Division of Revenue Bill, 2013

- She seconded the motion by senate to request the Supreme Court to give an Advisory opinion on the constitutionality of the process followed in the disposal of the Division of Revenue Bill, 2013 and the appropriate way forward in the matter.

Date: June 13th, 2013
Member of Parliament: Sen. Janet Ong’era
Contribution she made on: Motion on Establishment of Select Committee to Inquire into Existing Legislation Affecting Functions of County Governments

- She supported the motion and stated that it had come at an opportune time when the country needed direction on some key issues like the provincial administration. She further stated that the Government had to come up with a way in which it could deal with the provincial administration to avoid duplication of tasks in the counties.
- She noted that if the Motion was passed by the House and when the appropriate legislations were looked into, it would entrench devolution firmly in the hands of the county assemblies.
- She added that the men and women who had been proposed in the above Select Committee were people who had made outstanding contributions in society and were known as people who were respected legislators; and she was sure that if they were given the task, they would bring credible legislation that would easily pass in both Houses.

Date: June 13th, 2013
Member of Parliament: Sen. Janet Ong’era
Contribution she made on: Motion on Establishment of Select Committee to Inquire into Existing Legislation Affecting Functions of County Governments

- She supported the motion of amendment by stating the four nominees would enrich the Select Committee and also helps meet the gender consideration.

Date: 18th June, 2013
Member of Parliament: Sen. Zipporah Kittony
Contribution she made on: Establishment of Level Five Hospitals in All 47 Counties

- She seconded the Motion saying that issues of health touch on every mwananchi in the country.
She noted that the Committee on Health had come up with a very ample and a tentative summary of what is happening in the country. She however observed that the President’s Inaugural Speech, where he talked about the antenatal and postnatal care for women could also be incorporated in the Motion.

**Date: 18th June, 2013**  
**Member of Parliament: Sen. Elizabeth Ongoro**  
**Contribution she made on: Establishment of Level Five Hospitals in All 47 Counties**

- She supported the Motion by stating that good health is a human right and now that it had been recognized and enshrined in the Constitution, it is now a constitutional right to all Kenyans. Article 43 obligates the Government to provide this basic human right.
- However, she added that it is important to know that at the time, even if they built the 47 Level 5 hospitals, there would not have the human resource to support them.
- She recommended that the right infrastructure immediately be put in place in terms of constructing more housing facilities and also relooking critically at our education curriculum both in primary and secondary schools that support science subjects. This she added would enable the country to have many people enrolled in medical institutions who would then eventually graduate as doctors and nurses to sustain the physical infrastructure that will have been put in place.
- She disagreed with the opinion that counties like Nairobi should be excluded from the plan because Nairobi took care of, on average, five million people but additionally other people come to Nairobi in search of better services, especially health services, making the number go high to roughly eight million people per month.

**Date: 18th June, 2013**  
**Member of Parliament: Sen. Catherine Nobwola**  
**Contribution she made on: Establishment of Level Five Hospitals in All 47 Counties**

- She supported the motion saying that the Motion was long overdue because of the uneven distribution of health facilities in the country that continued to widen. She added that there were disparities in affordability and access to medical care and gave the example of Trans Nzoia County, where there was a hospital by the name Kitale District Hospital that served many neighboring counties and even Uganda, but the hospital was ill-equipped and did not have specialized equipment and so when someone was suffering from a kidney problem or requires a CT scan, he or she had to travel all the way to Eldoret or Nairobi.
- She added that in the Constitution, there was a provision relating to health and therefore the duty of the Government was to make sure that the common people
at home have access to health, as stated in Articles 43 and 53 which say that every child has a right to basic nutrition, shelter and health care.

- She further stated that as enshrined in the Constitution, it was the duty of the Government to look at how much money that had not been devolved to the counties could be used to put up Level 5 hospitals in every county and added that most of the hospitals in the counties were under-staffed and they did not have doctors who were sufficiently qualified to undertake serious operations.

**Date: 18th June, 2013**
**Member of Parliament: Sen. Joy Gwendo**
**Contribution she made on: Establishment of Level Five Hospitals in All 47 Counties**

- She supported the Motion but stated that most people were in hospitals with diseases that could actually be taken care of at home or by just going to the chemist.
- She proposed that before they elevated these hospitals, they also needed to empower the people. She also supported the idea of having the sub-county or district hospitals because the dispensaries at the rural area and to sort out the little problems that lead the hospitals to be full and overused, yet some of the problems could be sorted at family level.

**Date: 18th June, 2013**
**Member of Parliament: Sen. Linet Nyakeriga**
**Contribution she made on: Establishment of Level Five Hospitals in All 47 Counties**

- She supported the motion and said that the hospitals were far away where mothers had to take a lot of time travelling long distances to reach the hospital with their children and in most times the roads are not good. She also said that there was a shortage of doctors and there are no doctors who are able to use sign language to assist the deaf and doctors who could assist people with disability.

**Date: 18th June, 2013**
**Member of Parliament: Sen. Kanainza Daisy**
**Contribution She Made On: Establishment of Level Five Hospitals in All 47 Counties**

- She supported the motion by stating that there were people who were killed in Nangili Kakamega County could not get the necessary treatment to survive just because there were no hospitals nearby like in Nangili Market. Those injured had
to be rushed to Kongoni Hospital, but unfortunately, they were not also attended
to as they did not get the treatment that they required.

- She also stated that she had seen teenage boys suffer when they went for
circumcision in hospitals because in some instances they were circumcised by
watchmen, if not, they are dressed poorly by cashiers and that was a significant
problem just because they did not have enough doctors or practitioners in charge
of that.

- She further noted that in the area of eye treatment, people had to travel all the
way to Uganda to access this treatment and added that this had made the
expectant mother to seek local solutions because roads are too impassable to
allow them get to hospitals in addition to the medical care being expensive.

- Further, she stated that patients do not want to go to hospitals and lie on beds
unattended. That is why there is need in these hospitals. She also said that
Kakamega County has 12 constituencies and it is not everyone who can go to
Kakamega for treatment.

**Date: 19th June, 2013**

**Member of Parliament: Sen. Catherine Nobwola**

**Contribution she made on: Establishment of Graduates Enterprise Fund**

- She moved a motion that the level of unemployment among youths in Kenya is
over 70 per cent and rising and that the formal sector is unable to generate
sufficient formal employment for college graduates, resulting in far reaching
ramifications to the economy and society across all counties in Kenya.

- She noted that when parents educate their children, they expected them to go
through the education system and that at the end when they graduate; there
should be some sort of employment or business for that youth to engage in.

- She pointed that former students are told to clear their education loans before
they are considered for employment; she questioned how it was possible that an
individual could clear the loan if he or she has never been given an opportunity to
work.

- She suggested that the Youth Enterprise Fund be made accessible to the young
graduates, she suggested that the money should be devolved to the counties.

- She further suggested that through the Senate the Government should take
urgent and immediate steps to ensure legislation is enacted to provide for the
establishment of a Graduates Enterprise Fund to offer revolving interest-free loans
to unemployed graduates in all the 47 counties.

- She added that the establishment of the Graduates Enterprise Fund (GEF) in all
the 47 counties would be a realistic and practical intervention in addressing the
problem of youth unemployment in Kenya. Past initiatives, including the Youth
Enterprise Fund which was launched in 2006 by the central Government to
address the rising youth unemployment in the country as well as provide youth
entrepreneurs with capital for business startup did not create the number of jobs and businesses that were envisioned.

- She stated that the objective of this Motion was to awaken the responsibility of the State to address the gross problem of unemployment amongst graduates by providing them with funds to venture into micro and macro-enterprises in the various counties.

**Date: 19th June, 2013**
**Member of Parliament: Sen. Beatrice Elachi**
**Contribution she made on: Establishment of Graduates Enterprise Fund**

- She supported the motion by stating that the country has to open up many funds one of them being the Women Enterprise Development Fund. She further noted that the challenge is that there has been no research done to know how many people have benefited for the fund.
- While acknowledging that some may not have benefited she attested to many who women who had benefited from the Fund and gave an example of Kericho County- Ainamoi Women SACCO who were who received the funds and distributed it to their members.
- She noted that the government had put in line a framework of an agricultural programme all over the country, especially in the semi-arid areas where they are going to have irrigation.
- She added that Kenya did not only have graduates who had finished universities but also diploma graduates and young people whose parents had tried their best to take them through polytechnics and now have skills.
- She further stated the fund could expand and look at all those categories. She also noted that the Youth Enterprise Development Fund could not be accessed, especially by those in the marginalized areas while some youth did not understand the process.
- She suggested that there was need to reopen the county governments and look at devolution in a better perspective, but not looking at it in terms of opening up funds to help the graduates.
- She said that they could give the funds to the graduates, but there were challenges and pressure that the youths were facing also. She called upon the members to support the Cabinet Secretary for Devolution and Planning because all those funds have now been returned to her.

**Date: 19th June, 2013 MORNING**
**Member of Parliament: Sen. Liza Chelule**
**Contribution she made on: Establishment of Graduates Enterprise Fund**
She supported the motion on establishment of graduates’ enterprise fund but with amendments because Kenya already had a fund that is similar and so according to her, there was no need to have a parallel fund.

She stated that there were already structured enterprise funds that take into consideration the issue of youth and women but which are faced with challenges. She suggested what should be done, was to look at the challenges that these Funds have been facing so that they come up with modalities of addressing the challenges.

Date: 19th June, 2013 MORNING
Member of Parliament: Sen. Dr. Agnes Zani
Contribution she made on: Establishment of Graduates Enterprise Fund

She stated that the long term development strategy that led to Vision 2030 was very critical in establishing the YEDF whereby the above Motion was very different- it was proposing for a Graduates Enterprise Fund. She added that the range of youth was very, very amorphous and one fund did not necessarily negate the use of another fund.

She suggested the Motion be expanded to have the fund cater for the various categories because one could compare a Standard 8 graduate, for example, with the Form Four one or the university one. The university one has particular type of skills.

She further stated that the motion was actually targeting graduates who are very distinct. They could have the YEDF running as it is, but the realization was that at the university level, after the graduates have left, they have the skills and the content, but then they do not have a market that is ready to absorb them.

She reiterated that they probably did not have the network skills that are necessary for them to come together, or they do not want the complications of having to come together so that they can actually be able to access those funds as a group. She stated that it is about looking at that particular group to identify their needs and how those needs can be advanced through the fund which was better being interest free to enable them pay back.

She stated that what they needed to focus on was the management of the fund, to ensure that it does not create a sense of despondency and “let-me-wait, I will just get money and give it back.” She urged the other members to enhance the motion and save the unemployed, especially the graduates.

Date: 19th June, 2013 AFTERNOON
Member of Parliament: Sen. Janet Ong’era
Contribution she made on: Provision of Mobile Telephone Services in Marginalized Areas
She supported the motion and said that for the first time, the grassroots Kenyans were able to reach one another and be able to communicate with one another in terms of resource sharing. She gave an example of Kenyans being able to use the telephone as a banking instrument, to communicate with their children who are abroad as well as use the telephone to transact business. She proposed that the motion be referred to the relevant Committee to look at how it can be properly structured and presented.

Date: 20th June, 2013
Member of Parliament: Sen. Beatrice Elachi
Contribution she made on: Profiling and Resettling of Internally Displaced Persons

She supported the motion by stating that there were Internally Displaced People (IDPs) across the country and not just in the Rift Valley and Central provinces. She said that the issue of IDPs raised the emotive issue of land which went way back to 1963 when Kenya was struggling structures of Independence and building a country. She said that Kenya had reached a point in Kenya where people need to know that land is diminishing because of the increasing population.

She further noted that the real challenge is looking for a way the life of Kenyans can be improved in different ways of ensuring that every Kenyan, regardless of who has land, is able to put food on the table and alleviate poverty.

She added that regarding the issue of IDPs, the Government had already identified land in Nakuru, 5,000 acres in Molo and they had also identified another one in Burnt Forest but the challenge faced was reaching an agreement.

She noted that it was important to get to know the realistic data of IDPs, not just in Rift Valley but also in places like Likoni some of whom were displaced in 1997, those who were integrated with their families, to avoid the mistake made by the Mau Mau; to compensate others and leave others out.

She called upon the members to worked closely with the office of the Cabinet Secretary for Land, Housing and Urban Development who handed over what she handed the department to help finalize what had been planned.

Date: 20th June, 2013
Member of Parliament: Sen. Janet Ong’era
Contribution she made on: Profiling and Resettling of Internally Displaced Persons

She supported the motion with an amendment, and said that the house needed to not only look at the current problems without looking at the emotions that were also felt and which people went through in 1920, 1940, 1950 and in 1985 when all these problems occurred. The very same thing that the people felt is the very same thing they were faced with by what arose in 2007.
She therefore proposed that the Senate should come up with lasting solutions on how to deal with the issue of the IDPs in Kenya and also look at the historical injustices. She added that the government should look into the genuinely displaced people, including those of 1895, so that the issue is dealt with holistically.

Date: 25th June, 2013
Member of Parliament: Sen. Kanainza Daisy
Contribution she made on: Establishment of Graduates Enterprise Fund

- She supported the motion and noted that she represented the youth who after graduation were still tarmacking because of lack of jobs with statistics showing that there are 70 per cent youth in the country and 42 per cent of them are unemployed.
- She noted that the proposed Graduates Enterprise Fund would be important, be it those graduates from the polytechnics, colleges or universities because they have a special need - of getting employment. She added that the graduates also need to repay up their Higher Education Loans Board (HELB) loan which they are not able to repay because of lack of employment.

Date: 25th June, 2013
Member of Parliament: Sen. Catherine Nobwola
Contribution she made on: Establishment of Graduates Enterprise Fund

- She thanked the speaker of the house for allowing her to read the motion to the house and said that it is about enacting a law that is to protect the youth quoting Article 55 of the Constitution that the duty of the State to take measures, including affirmative action programs, to ensure that the youth have access to employment.
- She noted that some of the contributions made to the house by the other members who did not understand the differences between the current YEDF administered by the National Government and the need for a fund that takes care of graduates in the counties.
- She further stated that after the training and graduating from college, the graduates mostly come back to their counties to look for their livelihoods therefore, it is in the counties that a solution must be found.

Date: 25th June, 2013
Member of Parliament: Sen. Martha Wangari
Contribution she made on: Agreement between National and County Governments on Infrastructure Development and Equipping of Educational Institutions
She supported the motion by stating that the county governments were settling down and they need to be supported by being given more need time to reorganize themselves.

She seconded the President's directive that some of the functions will be devolved immediately but some would take some time. She proposed that the central Government could assist county governments to start off by seconding officers, so that they are effectively managed. She further noted that they needed to be optimistic and be ready to build the capacity of the county governments.

**Date: 25th June, 2013**  
**Member of Parliament: Sen. Naisula Lesuuda**  
**Contribution she made on: Agreement between National and County Governments on Infrastructure Development and Equipping of Educational Institutions**

- She supported the motion by noting that it was a very important Motion, especially when talking about the transfer of resources, functions and powers which relate to the development of infrastructure, equipping of institutions of learning at primary and secondary levels.
- She noted that the motion allowed them to understand Article 187 of the Constitution on how to deal with the transfer of powers. Education is an important step towards devolving powers. Article 174 of the Constitution says that the functions of devolution or the devolved government was to give powers of self-governance to the people and enhance the participation of people in the exercise of the powers of the state and in making decisions affecting them. It goes further to say that the devolved government will recognize the right of communities to manage their own affairs and to further their development.

**Date: 25th June, 2013**  
**Member of Parliament: Sen. Catherine Nobwola**  
**Contribution she made on: Agreement between National and County Governments on Infrastructure Development and Equipping of Educational Institutions**

- She supported the motion by noting that it came at the right time when devolving functions to the counties was on the process. She noted that even if the functions were being devolved, the same staff at the county assembly should be the same staff who were going to handle those functions. So, really, it is not calling for additional staff, but maybe in terms of skills because these functions have been performed by the national Government in the past, and particularly if you look at
Schedule 4 of the functions; No.15. Education policy has always been handled by the Government, curricula examinations, granting of university charters et cetera.

- She added that before the county governments sign agreements, they should go through the three Sections; 15, 16 and 17 and see what they will be able to handle. She noted that the Jubilee Coalition Government was committed to devolving the functions as per the Constitution by moving the powers and services to the people.

Date: 26th June, 2013  
Member of Parliament: Sen. Martha Wangari  
Contribution she made on: Protection of Tana and Athi Rivers from Pollution

- She supported the motion by stating that when looking at the environment, they should not limit the conservation to only three or four counties that the Mover had targeted but instead touch all the counties of this country so that a proper framework be put in place to ensure that the State undertakes to deliver to the citizens of this country what has been bestowed to them under Article 69.
- She noted that conservation traits should be cultivated in children right from the beginning including in the curriculum of schools where environmental conservation should be incorporated in the studies that they do every day.

Date: 26th June, 2013  
Member of Parliament: Sen. Martha Wangari  
Contribution she made on: Protection of Tana and Athi Rivers from Pollution

- She supported the motion by stating that some lakes had been covered by hyacinth and because of pollution, and the lake endangered the lives of the children under the age of five. She also added that there were no proper measures of where people can wash their cars or how to use this water that can help lives change.
- She noted that the government needed to find a proper way of directing the companies that do waste collection and everyone should protect our environment to keep livelihoods going.

Date: 26th June, 2013  
Member of Parliament: Sen. Liza Chelule  
Contribution she made on: Protection of Tana and Athi Rivers from Pollution

- She supported the motion and noted that the digging of pit latrines next to the boreholes promoted water borne diseases among the communities and should be addressed, stone mining along the river banks which promotes degradation along
the river banks and the Act stipulating that farmers are not supposed to dig or plough along the river banks but the problem has been how to enforce the law.

Date: 26th June, 2013  
Member of Parliament: Sen. Janet Ong’era  
Contribution she made on: Protection of Tana and Athi Rivers from Pollution

- She supported the motion by stating Kenya was faced with greater challenges of environmental management, with global warming become a reality in the world, which has arisen due to poor management of the environment and pollution.
- She proposed that the motion be amended to deal more with rivers all over Kenya including Gucha River in Kisii County. She suggested that an integrated approach as to how they can manage the environment and how to deal with waste management. If these two could be harmonized and then people could really understand, especially if civic education is done to the people, we will not have these issues of pollution.
- She requested Motion back to the Committee on Agriculture, Land and Natural Resources, where they could look at it in more detail and, perhaps, come up with a Bill to consolidate all the other Bills that are currently in place for proper interrogation and discussions in the House.

Date: 26th June, 2013  
Member of Parliament: Sen. Beth Mugo  
Contribution she made on: Protection of Tana and Athi Rivers from Pollution

- She supported the motion by stating that it is related to the health of Kenyans. She added that Eighty per cent of a lot of diseases, including diseases which are killing babies were because of water therefore the issue of river pollution should be looked into to ensure people in the rural areas have clean drinking water.
- She noted that, hon. Wangari Maathai, had proposed the banning of plastics, which went to Parliament but was defeated by a few people just because the industries got involved. She suggested that if the Senate would really want to make a mark and give Kenyans a longer life, they can do away with the plastics as they cause cancer.
- She added that the late hon. Michuki managed to clean Nairobi River showing that all rivers can be cleaned. She called upon the other senators to involve the governors in this fight of cleaning rivers in the counties.

Date: 26th June, 2013  
Member of Parliament: Sen. Agnes Zani  
Contribution she made on: Enactment of Law to Require Payment of Royalties by Investors to Counties

KENYA WOMEN PARLIAMENTARY ASSOCIATION [KEWOPA] | HANSARD – JUNE 2013 | 12
She moved the motion stating that it was about counties and ensuring that people are able to exploit natural resources in those counties to ensure that they are able to manage their affairs better.

Date: 26th June, 2013  
Member of Parliament: Sen. Janet Ong’era  
Contribution she made on: Nationwide Industrial Action by Teachers

- She pointed out that many times that teachers are an integral part of this society as they form one of the most essential services, yet they are not recognized and appreciated. She further stated that the Government had no business saying that they cannot pay teachers and they were not asking for a salary increment, but for payment of the reasonable allowances that they had been promised.
- She noted that hardship allowances were reasonable allowances and that the government should get its priorities right and fulfill the promises made to the teachers.

Date: 26th June, 2013  
Member of Parliament: Sen. Beth Mugo  
Contribution she made on: Nationwide Industrial Action by Teachers

- She stated that the importance of paying teachers properly could not be overemphasized and called for dialogue. She added that the teachers have suffered for too long and such like a problem cannot be solved overnight because they have to look at the wage bill totally, and not just one sector. She added that the issue of laptops should not be connected to the pay of teachers.

Date: 26th June, 2013  
Member of Parliament: Sen. Agnes Zani  
Contribution she made on: Nationwide Industrial Action by Teachers

- She pointed that the issue of digitization and laptops could fail to come up when talking about teachers who needed to be paid and looking for solutions and finding ways where there were resources that could be diverted to teachers who were very important in this society. She said that there is no other society apart from the Kenyan society where there is such inconsistency in education. In no part of the world would you hear that students or children have not gone to school either at primary, secondary or university.
- She observed it will be difficult to the school going children generation of Kenya who are used to knowing that unless there is a strike, then people will not be able
to do anything, and that an agreement that was made as far back as 1997 had not been honored and yet not enough concerted effort is going into honoring it.

Date: 27th June, 2013  
Member of Parliament: Sen. Beth Mugo  
Contribution she made on: Agreement between National and County Governments on Infrastructure Development and Equipping of Educational Institutions

- She opposed the motion by stating that education was a national function and must be standardized. She said that examinations cannot be set for the whole country unless education is standardized and the facilities are the same.
- She noted that she happened to have served in the Ministry of Education, Science and Technology as an Assistant Minister in charge of basic education and there are certain areas she visited where the capacity to handle such functions did not exist.
- She further stated that she believed that by devolving education, Kenya would have a more serious problem than it had today. She proposed that education should be at par in all areas and transfer of teachers should be done in a manner that teachers are available to every area so that children get the same level of education.
- She urged the Senators, especially those who are representing certain counties to rethink whether this was the time to devolve education in whichever form as education matters should not have any interruptions.

Date: 27th June, 2013  
Member of Parliament: Sen. Kanainza Daisy  
Contribution she made on: Agreement between National and County Governments on Infrastructure Development and Equipping of Educational Institutions

- She supported the motion and said that Primary and secondary education is very basic for the growth of a child. Devolving this function will enable Kenya improve education and as a result there will be good performance in the schools.
- She added that every school in every county wishes to be at the top and that means that they will be encouraging competition within the various counties and that it will be just devolving the functions but not the main things like examination, policies and curriculum.
- She noted that it is at the county level that education will be managed the many unemployed graduates from the specific counties and it will also encourage proper infrastructure in the counties and promote education for all. She observed that
the procurement bureaucracy which has to come from the grassroots level to the national level will be reduced.

Date: 27th June, 2013  
Member of Parliament: Sen. Judith Sijeny  
Contribution She Made On: Agreement between National and County Governments on Infrastructure Development and Equipping Of Educational Institutions

- She supported the motion by stating that it would help the locals within the county to eradicate poverty because they will be able to participate and provide the necessary equipment or whatever may be needed locally instead of waiting for resources to come from the national Government. She added that the Senate which has a mandate of overseeing the smooth running of the education system within the county will be able to vet and ensure that nothing goes wrong or nothing is abused.
POINT OF ORDER

Date: June 13th, 2013
Member of Parliament: Sen. Beth Mugo
Contribution she made on: Benefits of the Deputy President’s shuttle diplomacy to the Nation

- She inquired if it was in order for a member to mislead the House that while traveling to West Africa, people waited for two or three hours while it was known that connections to West Africa do not exist and at times people even fly to France or to Italy or another country in Europe to connect to a country like Nigeria which is in Africa.
