**Member of Parliament: Hon. Prof. Margret Kamar**  
**Contribution she made on: The Universities Bill**

She moved for the bill to be read a second time stating that:

- Quality in education is determined by the quality of the students admitted, the learning environment created, the curriculum adopted and the quality of the academic staff in the institution.
The Commission for Higher Education as is established currently has been limited to assuring quality of university education only in the private universities.

University education through public universities is particularly expensive to the Government and is not sustainable with the current resource base and has to some extent also influenced the quality of university education.

The Bill aims at that by expanding the university sector and also expanding access by all to higher education.

She called upon hon. Members to support the bill adding that education and training is fundamental to economic growth.

Date: 20th November 2012  
Member of Parliament: Hon. Millie Odhiambo  
Contribution she made on: The Universities Bill

She supported the bill and thanked the Minister for bringing it before the house but added that her concerns had not really been addressed as per the standards of a constituent university; creating equity and equality especially by gender.

Date: 21st November 2012  
Member of Parliament: Hon. Millie Odhiambo  
Contribution she made on: The Universities bill

She suggested the house resumes discussing the debate interrupted on 20/11/2012

She indicated that she wanted to address specific clauses beginning with clause 13. She said the clause should provide a standard for degrees including honorary degrees.

She moved for an amendment that would provide that the public be informed about accredited universities to avoid wastage of resources.

She also said that the vacancies that arise afterwards should be filled the same way as the original appointments, that is, by the minister.

She also proposed an amendment that would ensure universities are established in every county.
She proposed an amendment under clause 31 that would provide scholarships for the needy and indigent students.

She asked for clarification whether they were doing absolute reforms, including staff, under clause 73.

With regards to powers accredited to interim authority, she advised that universities should adhere to standards set by law.

Under clause 40, she stated that there was no definition of a student body

She suggested an addition of sub-clause 3 under clause 55 to allow students to access the courses of their preference or the alternatives they are applying for

Date: 22nd November 2012
Member of Parliament: Hon. Dr. Sally Kosgei
Contribution she made on: The Agriculture, Livestock and Food Authority Bill

She proposed the bill stating that there is need to reform and change the laws since the current laws are no longer useful, she also added that the parastatals don’t serve their purpose.

The new constitution also requires that laws are aligned to serve efficiently in the devolved government.

For the purpose of clarity she reminded the members of what she said before, that livestock has been completely removed from the bill as it belongs to the ministry of livestock. The bill extensively covers crop production and marketing.

Date: 22nd November 2012
Member of Parliament: Hon. Millie Odhiambo
Contribution she made on: The Agriculture, Livestock and Food Authority Bill

She supported the bill and thanked the minister for consolidating the law

She said that the way the bill was crafted gave a bigger role to the national government on issues of agriculture instead of giving it to the county government.
She therefore suggested that a voice of the counties be provided in the boards, this she said the board could have a nominee to the governor’s panel or find a way of representation of the county government.

She also suggested that livestock be retained since the minister had not given tangible reasons as to why it should be removed.

Date: 22nd November 2012  
Member of Parliament: Hon. Dr. Sally Kosgei  
Contribution she made on: The Agriculture, Livestock and Food Authority Bill

- She assured the members that there is a section on food security in the sessional paper that would address the issues raised on food security.
- She added that the whole point of the bill was to locate offices in all counties to take care of things.
COMMITTEE OF THE WHOLE HOUSE

Date: 4th November 2012
Member of Parliament: Hon. Esther Murugi
Contribution she made on: The Internally Displaced Persons Bill

- She recommended the following changes

  THAT, Clause 14 be amended

  a) By deleting in 14 (i) there is established a fund to be known as the Protection and Assistance to Internally Displaced Persons Fund and inserting “there will be the restructuring of the current existing National Humanitarian Fund

  b) By inserting in clause 14 (3) (f) “Funds from the exchequer” proposing to have the Humanitarian Fund restructured as opposed to creating a new Fund. This is because in the Report that was done by the Committee refers to the restructuring of the Humanitarian Fund, and the policy also refers to the restructuring of the Humanitarian Fund.

- She also proposed Clause 15(3) deleted and the words “the programmes to be funded and the amount to be determined by the National Consultative Coordinating Committee” inserted in place therefore. THAT, the Third Schedule: Conduct of Business and Affairs of the Committee be amended by

  a) By deleting and inserting correct numbering.

  b) By deleting in clause 3, (5) number and inserting “members”

  c) By deleting in clause 5, (2) shall and inserting “shall”

In the Third Schedule, Clause 5 is reading “number” and I think it should be “member”.

Date: 4th November 2012
Member of Parliament: Hon. Sophia Abdi Noor
Contribution she made on: The Internally Displaced Persons Bill

- She recommended the following changes; THAT, the Bill be amended by inserting the following new clause immediately after clause 23-23A. That any person who

  a) Pretends to be an internally displaced person or presents himself in a manner likely to suggest that he is an internally displaced person whilst he’s is not such person: or

  b) Provides false information during the verification or profiling of internally displaced persons or;
c) Establishes an institution or camp which consists of persons pretending to be internally displaced persons as contemplated in paragraph (a); commits an offence and shall be liable upon conviction to a fine not exceeding five million shillings or to imprisonment for a term not exceeding ten years or to both such fine and imprisonment.

Date: 9th November 2012  
Member of Parliament: Hon. Amina Abdalla  
Contribution she made on: Consideration of the Draft Elections (Registration of Voters) Regulations, 2012 (Regulation 2)

She recommended the following changes

- THAT, the proposed Regulation 2 be amended by inserting the following definitions in the proper alphabetical sequence.
  
  a) “Commission” has the meaning assigned to it in the Act;

  b) “Foreign representative of Kenya” means a public officer serving in a Kenyan foreign mission abroad

  c) The word “Commission” needs to be defined because it is mentioned throughout the Regulations, but it is not defined. Secondly, having collapsed the two regulations, it was necessary to define “foreign representatives of Kenya”, who are mentioned in the collapsed regulations.

- THAT the proposed regulation 5 be amended in sub-regulation clause (3) by inserting the word “officer” immediately after the words “assistant registration”.
  Regulation 5 seeks to add a word, “officer” because the regulation speaks of assistant registration but does not speak about an assistant registration officer. We are proposing the addition of the word “officer.”

- THAT, the proposed regulation 7 be amended-
  a) In the marginal notes by deleting the words “Registrations areas” and substituting therefore the words “Registration areas and Registration centres”

  b) In sub-regulation 7(c) by inserting the words “vessels or vessels” immediately after the words “vehicle or vehicles”

  c) In sub-regulation 7(d) by inserting the words “and publicise through electronic and print media of national circulation and other easily accessible medium” immediately after the words “Gazette”
d) In sub-regulation 7 (d)(iii) by inserting the words “vessels or vessels” immediately after the words “vehicle or vehicles”

e) By inserting the following new paragraphs immediately after paragraph (c) -
   (ca) designate such areas outside Kenya, in which registration is to be held, as a single registration area;
   (cb) declare the entire territory of the foreign country or any part of a foreign country, to be a registration area;
   (cc) declare a region consisting of more than one foreign country to be a single registration area; and

f) By inserting new sub-regulations immediately after sub-regulation (2) as follows-

   (2A) The Commission may use facilities of Kenyan foreign missions abroad, free of charge, for the purposes of voter registration or polling, as the case may be;

   (2B) The Commission shall, in respect of each registration area appoint a registration officer to be responsible for the compilation of a register for the respective area;

➢ The second one is in appreciation of the fact that in certain areas, we will be using mobile registration units that could be vehicles or vessels. This will take care of things like boats and vehicles. In “c”, this is in appreciation of Article 35 of the Constitution that the IEBC should go beyond publishing but also publicize the registers once they are established. In “d”, we again use the word “vessels” so that we cover all forms of mobile registration units. Part “e” is in appreciation that the regulations will be collapsed and that we will be dealing with the Diaspora registration.

➢ THAT, the proposed Regulation 12 be amended in Sub-Regulation(4) by inserting a new paragraph (d) as follows-
   a) By having in place an electronic register which may be accessed on a website, via mobile phone and such other electronic media as the Commission may determine.

➢ THAT, the proposed Regulation 13 be amended by deleting in Sub-Regulation (3) and substituting therefore the following-

   a) (3) the registration officer shall, for the purpose of registration, collect such biometric data, which include palm print and facial impressions of the persons applying for registration, as the Commission may determine.
THAT, the proposed Regulation 17 be amended by re-numbering the existing provision as sub-regulation (1) and inserting a new sub-regulations follows--

a) (2) A claim under sub-regulation (1) shall not be made ninety days to a date of a general election or referendum and sixty days before a by election.

Date: 11th November 2012
Member of Parliament: Hon. Amina Abdalla
Contribution she made on: Consideration of the Draft Elections (Registration of Voters) Regulations, 2012 (Committee Stage)

She recommended the following changes

- THAT, Regulation 8(1) be amended by inserting the words “and through electronic and print media of national circulation and other easily accessible medium” immediately after the word “Gazette”. This is just to increase the publicization of what is in the Gazette.

- THAT, Regulation 11(1) be amended by deleting all the words after the words “holding of” and substituting therefor the words “the respective elections in the Gazette and in the electronic and print media of national circulation as set out in the Act and through other easily accessible medium.

- THAT, regulation 13(2) be amended by inserting the words “disability and category of disability” immediately after the word “sex”. We need to know the category of the disability of a Member when they are applying for nominations.

- THAT, regulation 14 be amended in paragraph (a) by inserting the words “and file with the Commission” immediately after the word “obtain”. This is in relation with independent candidates filing a certificate that they are independent candidates

- THAT, regulation 17 be amended in paragraph (1), by-
  a) Deleting the words “at the same time deliver to the Commission, eighty” and substituting therefore the words “deliver to the Commission at least five days to the day fixed for nomination, in a hard and electronic version”;
  b) Inserting the words “identity card or passport number”

- Immediately after the words “respective signatures”. This is an important amendment because, as you are aware, hon. Harun Mwau took A4 certification list up to the Court of Appeal and yet, IEBC is saying that
presidential candidates must deliver to the Commission 80 foolscap sized papers. The presidential candidate needs to deliver 50,000 names, meaning that each A4 paper would be required to have the signatures and names of 624 persons. So, to avoid having another petition case where the numbers would not be achievable, we are deleting that 80. We are also appreciating that in this day and age, we should give an electronic version of the list so that the IEBC can have ample time to verify that those subscribers are actually voters. That is the import of amendment “a”.

➢ THAT, Regulation 18 be amended-

a) In paragraph (a) by deleting the words “five hundred thousand” and substituting therefore the words “one hundred thousand”; and,

b) In paragraph (b) by deleting the words “one million” and substituting therefore the words “two hundred thousand”. This is the nomination fee that presidential candidates will be paying to the electoral commission. We appreciate that the electoral commission will be spending cash in processing its papers but we do not believe that the 1,000 per cent increase is fair. So, we are proposing that presidential candidates pay Kshs200,000 each, up from Kshs100,000 in the last election, and that persons with disabilities pay half of that amount. That is the import of the amendment to Regulation 18.

➢ THAT, Regulation 55 be deleted and replaced with the following new regulation-

*Commission to publish formula for allocation of seats* 55.(1) The Commission shall before the election to which a party list applies publish in the Gazette and publicized through electronic and print media of national circulation and other easily accessible medium, the formula for allocating the seats to the respective political parties.(2) The formula for allocation of seats to the respective political parties from the party lists shall be the number of seats won by a political party divided by the total number of seats multiplied by available seats for allocation in the respective House.

➢ This is in relation to the formula that the IEBC would use to determine the allocation of party list candidates for political parties. We think that this is a very clear formula that should be provided for and not leave the ambiguity that we had in the last elections. So, we are proposing the deletion of Regulation of 55 and the replacement of a clear formula.

THAT, regulation 62 be amended-
a) In paragraph (1) deleting the words “as the returning officer considers immediately after the words “ballot papers”

b) In paragraph (2) (a) by deleting the words “transparent” and substituting therefor the words “fairly transparent or translucent”;

c) In paragraph (2) (b) by deleting the words “on the lid thereof” and substituting therefor the words “prominently and distinctively”;

d) By inserting the following new paragraph immediately after paragraph (c)“(ca) clearly labelled with the text of the respective elective position”;

e) In paragraph (4) (a) by deleting the word “a copy of the” immediately before the words “Principal Register” and substituting therefor the words “both electronic and hard copy of the”

She pointed out that the first one was to remove discretion of the returning officers being allowed to consider. The second has been an input by the IEBC. They say that pure transparent ballot boxes are usually weak. So, they are suggesting that we say “fairly transparent or translucent,” so that we do not have easily destroyed ballot boxes. The third one is to substitute on the lid by having the elections for which that ballot box is supposed to be used, to be prominently and distinctively labelled, and to say which election it is for.

She added that there was also the amendment on the principle register. We are going the Biometric Voter Registration (BVR) way. So, the principle register will not only be a hard copy, but an electronic copy as well. Those are the imports of the five listed amendments to Regulation 62.
